LOGNOTE -- Chief, Operations Group, 16 January 1986

1. [redacted] and I met today with a number of representatives from Production and Analysis Groups to brief them on the capabilities/limitations of Internet Phase I. They were advised to consider equipment/space needs for making use of Internet such as TV rooms, Extels for receipt of raw press agency copy etc. in budgeting and space exercises. They were also tasked with submitting prioritized lists to the Operations Group Task Force of material their groups will need/wish to receive via Internet. The papers are due 31 January.
